Most Probable Landfall Temporary Housing Model Results

Louisiana – 900
Texas – 5,400

Model results per county on following page

This model is based on a Category 3 storm making landfall in near proximity to Port Arthur, TX.

Information provided on this page displays a Category 3 storm making landfall near Port Arthur, TX. These projections are based on information from the NHC (***0500 EDT 09/24/2005***) forecast. The amount of temporary housing that may be required is based on no housing need in CAT 1 wind area, 2% of housing units requiring temporary replacement in CAT 2 wind areas, and 4% of housing units requiring temporary replacement in CAT 3 wind areas.
